

EPICS IN IEEE

Engineering Projects In Community Service

Empowering Students.
Developing Communities.

From powering villages with solar cells to developing mobile devices for better healthcare screening to connecting rural schools with technology, *EPICS in IEEE enables* engineers and students to make a real difference in the lives of people in their communities around the world.

PROGRAM DESCRIPTION

EPICS in IEEE empowers IEEE members and students to collaborate on service-learning engineering projects along with non-profit organizations to leverage technology to solve problems in their local community.

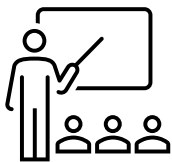

EPICS in IEEE helps fulfill the IEEE core purpose of fostering technological innovation and excellence for humanity. The program provides funding, support, mentorship, and visibility for engineering projects in four core categories of community improvement; **Access and Abilities, Human Services, Environment, and Education/Outreach.**

EPICS in IEEE allows students to develop unique skills and attributes, from project management to empathy, that will advance their careers and direct their community service for the rest of their lives.

ENGAGE WITH EPICS in IEEE

MENTOR

Use your knowledge and experience to help a student team succeed.

PARTNER

Partner with us to fund and support EPICS in IEEE projects with your company, IEEE society, or IEEE section/region.

DONATE

Give a Gift to support student projects. Your investment helps shape the engineers of tomorrow.

EPICS IN IEEE

Engineering Projects In Community Service

EPICS in IEEE Partnership Levels

Partner with EPICS in IEEE to support engineering students in making long-lasting impact in their local community while gaining critical skills that prepare them for the workforce and launch successful engineering careers. See the below partnership levels.

\$10,000

- Support up to 5 EPICS in IEEE Projects
- Donate to the unrestricted EPICS in IEEE fund
- Recognition on our partner webpage

\$25,000

- Support up to 5 EPICS in IEEE Projects
- Donate to the unrestricted EPICS in IEEE fund
- Opportunity to mentor student teams
- Recognition on our partner webpage

\$50,000

- Support a Community of Projects (5-10 projects)
- A Community specific webpage on the EPICS in IEEE website with IEEE Society logo
- Article featuring the community approved
- projects and spotlight on the IEEE Society
- Social media posts on EPICS in IEEE and other IEEE platforms
- Customized call for projects promoted to the society's student members

\$75,000

- Support a Project Competition within one of our four pillars or specific theme (10 projects)
- A Competition specific webpage on the EPICS website
- Article/videos featuring the competition projects spotlighting the IEEE Society
- Branded t-shirts for the student teams (with Society logo)
- Social media posts on EPICS in IEEE and other IEEE platforms
- Call for projects promoted to the Society's student members
- \$65K to project support \$10K to competition admin support
